Insofar as this office is concerned, approval to drill the above referred to oil well is hereby granted in accordance with Rule C-3, General Rules and Regulations and Rules of Practice and Procedure.

Should you determine that it will be necessary to plug and abandon this well, you are hereby requested to immediately notify the following:

CLEON B. FEIGHT - Director  
Office: 533-5771  
Home: 466-4455

Enclosed please find Form OGC-8-X, which is to be completed whether or not water sands (aquifers) are encountered during drilling. Your cooperation in completing this form will be appreciated.

Further, it is requested that this Division be notified within 24 hours after drilling operations commence, and that the drilling contractor and rig number be identified.

The API number assigned to this well is 43-043-30199.

Sincerely,

DIVISION OF OIL, GAS AND MINING

Re: See attached list of wells

Gentlemen:

In reference to the above mentioned wells, considerable time has gone by since approval was obtained from this office.

This office has not received any notification of spudding. If you do not intend to drill these wells, please notify this Division. If spudding or any other activity has taken place, please send necessary forms. If you plan to drill these locations at a later date, please notify as such.

We will be happy to acknowledge receipt of your response to this notice if you will include an extra copy of the transmittal letter with a place for our signature, and a self addressed envelope for the return. Such acknowledgement should avoid unnecessary mailing of a firm second notice from our agency.

Your prompt attention to the above will be greatly appreciated.

Respectfully,

DIVISION OF OIL, GAS AND MINING

Subject: Well Status (See Attached List)

Dear Ms. Furse:

This letter is in response to your inquiry of March 21, 1983, regarding the status of the subject wells.

American Quasar plans to drill all of the wells mentioned. Unfortunately, at this time we are unable to give a firm timing on each well, but are planning to spud the Protestant Camp 26-41 by late April. Our plans presently call for a one-rig program to drill the permitted wells in succession.

If you have any further questions, please contact me at your convenience.

Sincerely,

Thousand Peaks Ranch Nos. 26-11 and 26-13,  
UPRR Nos. 35-11, 35-33 and 35-44,  
Summit County, Utah

Dear Ms. Furse:

Pursuant to your inquiry of September 9, 1983, regarding the well status of the subject well permits.

As mentioned in our letter of March 25, 1983, American Quasar plans to drill all of the subject wells consecutively. The Protestant Camp 26-44 is nearing completion at this time, and plans are to begin operations on the UPRR 35-22 (permit approval pending). Following completion of these wells, drilling operations will commence on one of the subject wells depending upon information obtained from the previous wells.

Due to the complex geology of the area, American Quasar feels that a one rig development program is necessary in this area until adequate information has been obtained to outline the productive limits of the area. Therefore, although at this time all subject wells are planned, an exact order and timing cannot be accurately provided.

Sincerely,

John F. Works
